Health Services

2021-2022 School Year

Dear Parents,

In an effort to better serve the health needs of your child, we have developed a policy which allows us to administer acetaminophen and/or ibuprofen to your child if necessary during the course of the school day. In accordance with our medication policy, we are sending you this letter to allow you to give authorization for the School Nurse to administer the medications noted below to your child if necessary for your child’s comfort and safety during the school day.

Please indicate if you **do** or **do not** wish to give the school nurse permission to administer acetaminophen tablet(s) or elixir (generic Tylenol) and/or ibuprofen tablet(s) or elixir (generic Motrin, Advil) to your child for headache, menstrual cramps, orthodontia pain, fever  $\geq 101$  F. or other pain according to the Standing Orders of the school medical advisor and professional judgement of the school nurse. The Standing Orders allow up to two (2) doses/month of medication for students in Pre-Kindergarten through Grade 5 and up to four (4) doses/month of medication for students in Grades 6, 7, and 8. **However, for dosing beyond the Standing Order limit and for all Field Trips**, administration of these medications will require the written order of an authorized prescriber (e.g. your child’s pediatrician) and a parent/guardian’s permission documented on the school’s standard medication authorization form.

Please contact the school nurse if you have any questions.
