

Middle School Weather-Related Plan While School is Physically in Session

1st Snow Day - all middle school teachers will post assignments on Google classroom and will offer office hours to students.

2nd Consecutive Snow Day/ "A" Day - core academic subjects (ELA, Math, Science, and Social Studies) will conduct 30-minute zooms with each class. Religion and Spanish will post assignments to Google Classroom.

3rd Consecutive Snow Day / "B" Day - Religion and Spanish will conduct 30-minute zooms with each class. Core academics will post assignments to Google Classroom.

- There will be no synchronous specials on "A" or "B" days. Capstone meetings may be called.
- Our distance learners will follow the snow schedule rather than their existing schedule in the event of a weather-related event.
- We will continue to alternate "A" and "B" Days as long as the weather event lasts. If there is a subsequent storm after we have returned to school, we start at the beginning again with the 1st Snow Day schedule.

"A" Day Schedule
